Explanation of Responses:

1. Each share of the issuer's Class B Common Stock will automatically convert into one (1) share of the issuer's Class A Common Stock (a) at the option of the holder and (b) immediately prior to the close of business on the earliest of (i) ten (10) years from the closing of the issuer's initial public offering, (ii) the date on which the outstanding shares of Class B Common Stock represent less than one percent (1%) of the aggregate number of shares of Class A Common Stock and Class B Common Stock then outstanding or (iii) the date specified by the affirmative vote of the holders of Class B Common Stock representing not less than two-thirds (2/3) of the voting power of the outstanding shares of Class B Common Stock, voting separately as a single class, and has no expiration date.

Remarks:

This amended Form 4 is filed solely to report that the Form 4 as originally filed on January 29, 2020 was correct as filed in connection with exercise of two stock options and the issuance of the issuer's Class B common stock in connection therewith; the disclosure above reflects the total number of shares of Class B common stock held after the exercise of the stock options, which Class B common stock was not converted to Class A common stock at such time, as was mistakenly reported in a Form 4/A filed on April 3, 2020.
